

School based vaccination programme for year's 1 and 2. Protection against winter flu

The Immunisation Team have planned to visit your child's school on ...16/10/15...

If you would like your child to receive the nasal flu vaccination please ensure a completed consent card has been returned to school before the above date.

There are very few reasons why the nurses would not give a nasal flu vaccination to a child.

It is important you inform the Immunisation Team on 0121 245 5760 if'

- **Your child has already received a flu vaccination since September 2015**
- **There has been any change in your child's health since you completed their consent card.**
- **Your child is wheezy within the 3 days before the vaccination is planned in your child's school – see date above.**
- **Your child is currently living with or in close contact with a family member who is immunosuppressed.**
- **Your child has had a severe reaction to eggs since you completed their consent card.**
- **Your child has developed any new allergies since you completed their consent card.**
- **Your child has had to increase their asthma medication or is taking oral steroids when the nurses are planning to visit the school.**

If you have not completed a consent card and would like your child to receive the nasal flu vaccination please ask for a consent pack from school reception or contact the Immunisation Team on 0121 245 5760
